MUTIULLAHI A. UTHMAN, B.Tech

Oyo State, Nigeria uthmanmutiullahiadedokun@gmail.com Portfolio LinkedIn

Professional Summary

Detail-oriented Full-stack & Mobile Engineer with over 5 years of experience designing and developing scalable web and mobile applications across e-commerce, education, logistics, startups and SaaS industries. Proficient in MERN stack (MongoDB, Express.js, React.js, Node.js), React Native, Flutter, Golang, and PostgreSQL. Skilled at building high-performance platforms with strong UI/UX, security, and cloud deployment on AWS and Azure. Experienced in optimizing Largest Contentful Paint (LCP) for fast-loading applications, fault-tolerant server design, and CI/CD workflows. Passionate about continuous learning, SaaS architecture, and contributing to innovative tech teams worldwide.

Technical Skills

Mobile Development: React Native (Expo + bare workflows), Flutter, Java, Cross-platform optimization.

Frontend: HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Vue.js, Tailwind CSS.

Backend: Node.js, Express.js, NestJS, Golang, Prisma ORM.

Databases: PostgreSQL, MongoDB.

SaaS & Web Applications: Multi-tenant SaaS architecture, Stripe, Paystack, Flutterwave integration.

DevOps & Cloud: Git, GitHub, GitHub Actions, Vercel, Netlify, AWS (EC2, RDS, S3), Azure (App Services, SQL Database).

Tools: Figma, Firebase, Cloudinary, REST APIs, GraphQL.

Other: Agile methodologies, SaaS scalability, performance optimization (LCP, server fault tolerance)

🚀 Selected Projects

Kago-wallet – Delivery app connecting users, vendors, and riders. Built with React Native (TypeScript), Golang backend, and PostgreSQL database. Optimized for fast loading and reliable server performance.

PorSaaS – All-in-one school management SaaS platform. Developed with React, Node.js, Prisma, and PostgreSQL. Features include student management, academic records, and secure payment integration.

ChopWallet – SaaS platform connecting food vendors, riders, and customers. MERN stack with real-time delivery tracking and vendor dashboards.

Dakul Delights – E-commerce platform for a food brand. MERN stack with Flutterwave integration.

Raodotul Irfaan International Schools – Responsive school website with Paystack integration. Built with React, Tailwind CSS, Express.js, MongoDB.

Pelzsecret – Fashion e-commerce site with responsive design and seamless UX. Built with HTML, Firebase, CSS Styled Components, Node.js, MongoDB, Cloudinary.

💻 Professional Experience

Full Stack Developer & SaaS Builder – DakulTech Web Solutions | Jan 2024 – Present

- Led development of SaaS platforms including Dakul Delights and ChopWallet.
- Built scalable applications with MERN stack and Prisma ORM.
- Integrated secure payment gateways and authentication systems.
- Deployed apps on AWS and Azure for high availability.
- Mentored junior developers and contributed to product roadmaps.

JavaScript Tutor – Code With Me | Jul 2023 – 2024

- Tutored 50+ students on JavaScript fundamentals, ES6+, and asynchronous programming.
- Designed interactive lesson plans and guided learners through real-world projects.
- Supported interview preparation and bootcamp assessments with a 90% success rate.

Freelance Full-stack Developer – Remote | Jan 2021 – 2023

- Delivered 10+ custom web applications for education, retail, and logistics.
- Integrated third-party APIs and payment gateways (Stripe, Paystack, Firebase).
- Improved performance and reduced bug reports by 40% through refactoring.
- Provided post-launch optimization including SEO and user feedback integration.
- Optimize web apps and mobile apps LCP.
- Build APIs with appropriate Load balancer, Roun robin, Health check and fault tolerance.
- Handling outages, race conditions and high-traffic failures.
- Building of stable internal tools
- Hosting of applications on cloud like AWS and Azure

🎓 Education & Certifications

B.Tech. (Hons) Agricultural Extension & Rural Development – LAUTECH, Oyo State, Nigeria | 2016

Certifications:

- Artificial Intelligence – Geek-for-Geeks (2025)
- SaaS Architecture – Geek-for-Geeks (2025)
- Full Stack Learners – University of Helsinki (2025)
- Advanced Developers – Frontend Masters (2024)
- Intermediate to Advanced Devs – Zero to Mastery (2023)
- Frontend Development – GB Tech Institute of Computer (2022)
- Web Development Bootcamp – Angela Yu (2021)
